CAREER OBJECTIVES

To obtain a responsible and challenging job and opportunity where I could apply my knowledge and experience while aiming to leverage my skills in order that I can be relied upon to help your company achieve its goals.

TECHNICAL SKILLS

- Web Development And Design
- Web and Mobile app Development
- Language (HTML, XML, CSS, React, JavaScript, PHP, Python and Java)
- Microsoft Office (MS Word, Excel, Powerpoint, Internet, etc.)

COMPLETED PROJECT/ RESEARCH

- **Cloud-based Furniture Customer Account and Loan Information System - Sanny's Furniture Shop**

A web based project that enables customers to view their account, loan information and status, order status. The customer is also able to add to cart and checkout products they order and can apply for a loan online.

- **Blogspot Project- Pluma't Papel**

A web based project that is similar to a social media platform but focuses mainly on poems and images. The user can create and edit an account. The user also can view, create and upload blogs and images to the website application.

- **Food Cart - Food Ordering System**

A web based project that enables users to order food products online that was posted by a partnered fast food chain company and to be delivered to the user.

- **Biliran LiveStock**

A web based application that allows users to create accounts as a buyer or a seller with a subscription mechanism that allows them to post and sell their livestock on the website. And the buyer also sees and tracks his transaction through his dashboard. And the seller can also manage

their post, information about their products in their dashboard. It was a simple e-commerce system but with a subscription mechanism on the seller's side.

- **StarUpdate - Testing and Update**

A web based application that tracks and manages all the tests, updates, customer's complaint, fixes of the app and websites. It is a website for a company that enables testers to enter data about the function tested. It also enables the admin to check the status of the application, how the test was conducted and procedures done.
